To the Impact Makers Board of Directors & Team of Consultants:

As President of Future Leaders in Project Management (FLiPM®), I would like to thank you for your continuous support and partnership in 2015. Because of your unwavering commitment to building our community, 2015 was a year of firsts for our organization.

Last year, your consultants donated under just 200 hours of pro-bono support with our partnership. Several of your employees generously volunteered to teach project management knowledge areas and patiently explained your socially conscious business model to high school students. They also have been co-teaching some of the Life Skills classes as well as helping prepare the high school graduates for the Certified Associate in Project Management (CAPM®) examination. Impact Makers (IM) employees participated in selecting the winner of the Impact Makers Scholarship by attending the Project Extravaganza and interviewing the potential candidates. Their selection was a student who has the same core values of social responsibility and has ambitions to impact the world in a positive way. When the awards ceremony could not be held at the Central Virginia Chapter of PMI® dinner meeting, Impact Makers graciously stepped in to offer their facilities to host the event. Finally, your employees have been guiding and advising us in creating a business model that will enable FLiPM® to expand its program into other states.

The financial contribution provided to FLiPM® has funded three high school in Virginia as well as the first program in Western Michigan. With those funds we have reached almost 250 children, added 20 CAPM® student certifications and have helped three teachers earn their Project Management Professional (PMP®) certification.

We are extremely grateful for our business partnership and look forward to the possibilities now available to us in 2016. We plan to expand our program in Virginia by teaching CAPM® certification with your other business partners to adults in communities needing career opportunities. I believe that together we will greatly impact not only the lives of the students, but also enrich their communities through project management.

Thanks you once again!

Jennifer Romero-Greene
President
