

2016-2017 Impact Report

We couldn't be more thankful for the impact our clients have made. Every hour our management and technology consultants work adds the essential fuel to the fire of our business model: our commitment to giving 100% of our net profits to the community over the life of the company. And that engine couldn't run without the passionate clients who've partnered with us. Join us as we revel in what we accomplished together in 2016 and 2017.

BOARD OF DIRECTORS, IMPACT MAKERS

TOGETHER WE GIVE EVERYTHING FOR YOUR BUSINESS & TO THE COMMUNITY

BUSINESS IMPACT – CLIENT CASE STUDIES

Helping manage through transformation is our passion, across IT, data, cloud, security, and people.

- We made a \$3B health system mature & secure. Over 20,000 employees now have a solid IT security foundation, with risk management and security architecture frameworks.
- We developed a data warehouse business case for a large community bank. Now we're building it, ensuring it's secure, accurate, and usable for the business.
- We are standing up and optimizing devops and the cloud for a major financial institution.
- We gave the Virginia DMV a security tune-up. We facilitated an IT Security Program transformation that provided a true culture of security, aligning with their core mission.

COMMUNITY IMPACT – PRO BONO CASE STUDIES

Our community contributions, financial and pro bono, rival companies 100x our size because of our model.

- We equipped Family Lifeline with foundational brand strategy that will catapult fundraising and marketing work for years to come.
- We built a digital, confidential filing system for Peter Paul Development Center so they could securely move from paper to digital.
- We traveled to Haiti to facilitate an app implementation, innovating how Midwives for Haiti collects and interprets vital data.
- Peter Paul Development Center has a vision of unity for Richmond's East End and we designed a campaign to partners and donors make it happen.

EVERY HOUR COUNTS. EVERY DOLLAR MATTERS.

"Undoubtedly, Impact Makers is one of the absolute finest organizations that I have had the pleasure to work with. Not only do they meet all project deliverables on schedule and within budget, but they are also a pleasure to work with. Impact Makers is flexible and they remind me all of the time that their goal is to over-deliver — and on each initiative I can say — they have met that objective."

RICK DAVIS, CHIEF TECHNOLOGY OFFICER
Virginia Department of Corrections
